# Prospects for the furniture industry in the UAE

2019-09-02 13:15:11

UAE continues on its path of diversifying away from oil and gas as well as with preparations for the big 6-month long Expo 2020 exhibition commencing in Oct next year.

According to industry reports - spending on design and interior fittings in hotels are about to overtake those in residential sector. In 2019 number of hotel rooms will grow by additional 58 000 and existing rooms are being refurbished as well. In residential properties numbers keep going up too, two main locations are Dubai and Abu Dhabi but its definitely worth keeping an eye on Sharjah as well - essentially part of Dubai ecosystem.

UAE market offers a full range of clients and projects - not only spacious luxury residences and swanky offices but also ever-growing clientele in lower income brackets as well as locations for rent (eg. AirBnB).

INDEX fair is a great way to research local trends and potential business partners who may help enter not only UAE but wider GCC and India markets too.

**We cordially invite you to visit the Polish stand organized by PAIH during the INDEX DUBAI 2019 fair (stand No. 1D48).**
